

# **Beginning Dreamweaver Final Assignment**

**In your final web page, we will be looking for the following:**

- A homepage that is functional and easy to navigate
- 4 internal links (one of which can be your email link)
- 4 complete pages that are functional. In other words, these pages have content, including the homepage
- 2-4 external links
- Comprehensive use/understanding of tables, images, page preferences and background colors.

## **Questions to Consider:**

- Is my page easy to navigate?
- Are all my links properly set up both "to and from"?
- Is there evident organization?

**Good luck!**
